Reading Strategies

Every child is an individual and learns differently; therefore we have to use different ways of learning. Reading is not about just reading a book it is a life skill.

Within our school we have various resources to improve our reading we use Read Writing Inc, Project X, Read with Biff, Chip & Kipper, Ladybird Read it yourself and Ruth Miskins Super phonics but to name a few. We also incorporate menus, leaflets and game instructions so they can use their skills in other ways.

The tools we use to aid the learning process are varied and range from flash cards, flip cvc building, audio stories, magnetic boards & letters, alphabet snakes and other games of different abilities.

Our library is always stocked up with books of their choosing and with what they enjoy, this makes them feel responsible for picking the books for school and in turn they want to read these books.
